HEINIE'S IS NOT TO BE PROBED BY LICENSE BOARD

Hear Rumor of Ownership of Control Shifted to Liquor Dealer is Incorrect

A report which has been in circulation during the last few days to the effect that the license of Heinie's Tavern, which is controlled by the Walker family, is to be shifted to a liquor dealer, is incorrect. The license of Heinie's Tavern, which is controlled by the Walker family, is to be shifted to a liquor dealer, is incorrect.

There was published the other morning a statement to the effect that David H. Lewis of Lovejoy & Company, had purchased all the stock in Heinie's Tavern, which is controlled by the Walker family. In view of this statement, says Mr. Lowrey, certain members of the liquor board were led to believe that, if the statement was true, Mr. Lewis might be violating the spirit of a ruling of the board to the effect that it does not approve of a wholesale liquor establishment having a retail outlet.

A director of the Walkiki Inn, Ltd., informed the Star-Bulletin today that Mr. Lewis holds voting trustees' certificates for 240 shares in the tavern, which is a part of a total of 1500 such shares. These shares, according to the director, was Lovejoy & Company's claim against the old Walkiki Inn, and Mr. Lewis took up the shares personally when the new company was organized and the name of the inn changed to that of Heinie's Tavern.

Chairman Lowrey said that, if these facts were true, he could not see where there would be any ground for the liquor board to conduct the purported investigation.

There is no one person having absolute control of the Walkiki Inn, Ltd., the director of the corporation continued. "All the stock in the tavern is held in trust for two years and is owned and voted by five trustees; namely, H. A. Jones, Edwin Benner, J. Ashman Beaven, E. C. Conner and W. T. Carlen. The voting trustees have issued voting trustees' certificates which, at the end of two years, will be redeemable in stock in the Walkiki Inn, Ltd. share for share. Between 40 and 50 local persons hold these certificates and no one person owns a majority of them."

EXPLORER COOK, SPY SUSPECT, LANGUISHES IN RANGOON PRISON

[Associated Press by Federal Wireless] SAN FRANCISCO, Cal., October 3.—Explorer Dr. Cook of North Pole fame, who went to India with the avowed purpose of climbing to the top of Mount Everest, is languishing in a British jail in Rangoon, Burma, on a charge of being a German spy. This is the story which has been brought here by Curtis Allen, an American, who himself had plenty of experiences with the Indian secret service men. Being caught in India without a passport, Allen had the greatest difficulty in moving around, being thrown into prison seven times in eleven months. Dr. Cook has had his moving picture outfit confiscated.

ARIZONA MILITIA ORDERED OUT TO QUELL STRIKERS

[Associated Press by Federal Wireless] PHOENIX, Ariz., Oct. 4.—Serious disorders are occurring at Glifton, where the miners are on strike, and Governor Hunt has ordered the militia there.

Governor Hunt acted upon receipt of despatches from the sheriff there that the strikers could not be controlled by his force of deputies and that troops alone could subdue the men.

The strike disorders are declared to have grown worse following the parade Saturday, when officials of the company were seized by the miners and not released until after the sheriff and his deputies had intervened by force.

It is feared the coming of the militia may see another outbreak similar to that in Colorado two years ago.

IN WAR ARENA RUSSIA SENDS ULTIMATUM TO BULGARIA

LONDON, Eng., October 4.—Russia has presented an ultimatum to Bulgaria, with a time limit of twenty-four hours, which will expire early this afternoon. It is not anticipated that Czar Ferdinand will return a peaceful reply and a declaration of war from Petrograd is expected to come either today or tomorrow.

The Russian ultimatum has been presented at Sofia by the Russian minister. It calls upon Bulgaria to dismiss the Austrian and German officers who have recently arrived to direct the operations of the Bulgarian army. If these dismissals do not come within twenty-four hours, the minister informed the Bulgarian minister of foreign affairs, he, the minister, has been instructed to leave Sofia, while the Bulgarian minister at Petrograd will be handed his passports.

Allies Indorse Action.

The British, French and Italian ministers at Sofia have notified the Bulgarian foreign office that their governments are in full accord with the action of Russia regarding the Bulgarian situation and that the powers of the Quadruple Entente will act together in all matters affecting Russo-Bulgarian relations.

BRITISH CONSOLIDATE POSITION SOUTH OF LOOS

LONDON, Eng., Oct. 3.—Sir John French, reporting on the day's engagements south of Loos, announces that the British have captured the two trenches which remained in German hands southwest of Fosse, which completes the work which the offensive began a week ago was planned to accomplish. The trenches were captured after a desperate struggle, the Germans having reinforced their front heavily at this point.

Last night the Paris war office officially announced that the heights of Laelle had been taken.

French Forces Wiped Out, Says Berlin.

In the advances in the Champagne the Paris reports state that the French have driven an important salient into the German lines north of Meuse, engaging in hand to hand fighting and taking a number of machine guns and prisoners. The Berlin despatches contradict this. They agree that one French force penetrated the German lines in the Champagne but announce that it was annihilated, the few survivors surrendering.

Monitors Shell Westende.

Paris reports that there has been heavy artillery fighting north of Berry au Bac, the Germans making use of asphyxiating shells, while along the Flemish lines there has been constant artillery duels, the French heavy batteries bombarding the German positions at Westende, while British monitors shelled the Germans from the sea.

Before Dixmude the Belgian lines were subjected to a torrent of German shells, one sector of the Belgian trenches receiving four hundred bombs during the day. The Germans made no attempt to follow up this bombardment with any infantry attacks.

Airmen Wreck Troop Train

The aeroplanes ranged up and down the railroad lines and succeeded in wrecking a troop train, one bomb cutting the train in two. In the general bombardment the aero fighters claim to have made three hundred hits.

HEAVY RAINS DELAY ALLIES' OFFENSIVE

LONDON, Eng., October 4.—Heavy rains of the past forty-eight hours in France have interfered with the continuance of the Allies' offensive and have been equally embarrassing to the Germans in their efforts to bring up reinforcements.

There have been few changes in the eastern situation, according to Petrograd and Berlin. The greatest activities are reported from the Caucasus and in Mesopotamia, where the Russians and the British are pushing their advantages gained in recent offensives.

French Airship Winged by Gunfire.

A Berlin despatch announces that a French airship, operating over Alsace, was winged by anti-aircraft guns over Bethel and forced to descend. The members of the crew were made prisoners.

Berlin also reports that repeated efforts of the British to recapture the ground lost by them north of Loos have failed, the British losing heavily in their attacks.

GERMAN NOTE ON ARABIC PROVES DISAPPOINTING

Communication Fails to Satisfy U. S. Demands, Say State Department Officials

BERNSTORFF IS ASKED TO A CONFERENCE

Government Experts Think the Hesperian Was Not Torpedoed But Struck a Mine

[Associated Press by Federal Wireless] WASHINGTON, D. C., Oct. 4.—The Arabic note, the German reply to the demand of President Wilson that Germany disavow the act of the submarine commander who attacked and sunk the White Star liner Arabic, which was delivered by Count von Bernstorff on Saturday, brings another disappointment to the administration. The note fails to meet the issue raised by the president and falls far short of satisfying the demands made by the United States, which announced that the German explanation for the sinking of the Arabic was not borne out by the facts and that the United States expected a disclaimer of the act and the payment of indemnity for the lives of the Americans lost in the destruction of the liner.

President Refuses to Talk.

Yesterday, the president and Secretary of State Lansing were in lengthy conference over the latest German reply, each refusing to be interviewed after the conference. It was announced, however, that the German ambassador, Count von Bernstorff, had been summoned to the state department at an early date in order that he might be officially informed of the American view of the situation.

It is understood that the president intends to reaffirm his previous views and to repeat the demand for disavowal and indemnity.

U. S. Will Stand Firm.

There exists no immediate danger of a diplomatic rupture with Germany, as matters stand, as the text of the German note is said not to be final and to pave the way for further diplomatic negotiations in the matter.

It is asserted positively, however, upon the authority of those close to the administration, that should Germany finally refuse to meet the American demands the rupture will come and the German ambassador will be handed his passport.

The text of the German reply has not been made public, but it is stated that in it Germany admits that the submarine commander made a mistake in interpreting the maneuvers of the Arabic as an attempted attack upon him and offers to submit the matter of German liability to a court of arbitration.

Hesperian Not Torpedoed.

Yesterday it was stated that the naval and military experts, to whom the fragment of steel picked up on the deck of the Hesperian had been submitted to determine whether that vessel had been sunk by a torpedo or had struck a drifting mine, had practically decided that the steel was that of a mine and not a torpedo.

These experts will submit their findings to Secretary Daniels this week. He will transmit them to the state department.

DEATH SUMMONS MRS. E. L. WALKER AT SEVENTY-ONE

Ending a life of simple and earnest usefulness, death summoned last Saturday night Mrs. Elizabeth L. Walker, wife of Capt. F. D. Walker, a native of Liverpool, England, and a resident of Hawaii for many years. The deceased was the mother of F. G. E. Walker, Henry E. Walker, and Charles D. Walker, all of this city.

Mrs. Walker was aged 71 years and three months. Death resulted from paralysis, following an illness of four months. Owing to a rapid turn for the worse, Mrs. Walker was removed on Thursday to the Queen's hospital, and her death was expected hourly.

Together with her husband, Mrs. Walker made many sea voyages during her life, first coming to Hawaii from Midway Island in 1889, from which place they had been removed after 14 months as shipwrecked castaways, their own schooner, The Wanderer, Minster, having gone on the rocks there. Many hardships were endured by the castaways during the enforced stay.

During her long residence in Hawaii Mrs. Walker made many friends, and became engaged in many good works, and her death is mourned by a great company of friends.

Funeral services will be held at 3:30 o'clock tomorrow afternoon at the residence, 648 N. King street. Interment will be made in Nuanuan cemetery.

Mike Balowski, a prisoner who mysteriously disappeared from Auburn prison, was found hiding on top of one of the great refrigerators in the kitchen.

He requests General Wiser's assistance in bringing to the attention of those who may be unaware of the law, the provisions governing hunting with firearms in this county.

General Wiser has forwarded to all organization commanders a copy of this letter together with a copy of Sections 2026 to 2030, Revised Laws of Hawaii, 1915. The penalty for hunting without a permit is a fine of not less than \$25 nor more than \$50, or imprisonment for not less than 10 days nor more than three months.

The failure of the war department to provide transportation to the mainland for enlisted men under orders and due for discharge will accrue a total of nearly 1200 men from the department who will be eligible to go in November. With two more companies of the 24th Infantry to take the next transport from the Philippines and a possibility that the 7th Cavalry will also be on board, prospects do not look very bright for more troops to leave Hawaii before December.

Whitman, medical corps, was thrown under the car, and run over. He was taken to the hospital and several stitches taken in his arm. Though badly shaken up he was not seriously injured. M, 1st Infantry, made their escape from the guard house in that cantonment about 2 o'clock Friday morning by means of a hole in the floor which was made by removing one of the boards. So far all attempts at capturing the men have been without success. They were all about 21 years of age and were confined for minor offenses.

Mass will be held at the post chapel by Chaplain Fealy at 8 a. m. and at 9 a. m. tomorrow. Sunday school will be at 10 a. m. and Chaplain Alken will hold services at 10:30. At 7:30 p. m. Chaplain Scott will hold services for the colored members of the garrison.

The baseball attraction for tomorrow is a double header. The first game will be between the 1st Infantry and 1st Field Artillery and will be called at 1:30 p. m. Following this game the 25th Infantry will play the 2nd Infantry from Fort Shafter.

Combat firing has again commenced on the A range and will take place both morning and afternoon. All are warned to keep east of a line running from the white water tanks to the north pumping station.

HILONIAN LOSES GRAYWOOD; SHIP NOW DERELICT

Matson Steamer Has Bad Luck When Hawser Breaks Twice; Tugs are Out on Search

[Associated Press by Federal Wireless] SEATTLE, Wash., Oct. 4.—Grave fears are now entertained for the safety of the crew of the steamer Graywood, formerly the Dollar steamer Harold Dollar, which is adrift and helpless, without assistance nearby.

The Graywood, out of control, was being towed into port by the Matson Line steamer Hilonian Saturday when the hawser broke. Wireless despatches said the Hilonian was standing by to salvage the Graywood.

Later despatches said it was not necessary to salvage the ship, as the hawser was repaired, but a wireless early this morning said the hawser had broken again and that the Graywood had drifted to sea in the night and been lost sight of.

Tugs have been sent out to search for the Graywood, but it is feared that she may have sunk. The Hilonian had towed the crippled steamer into sight of Tatoosh when she broke loose a second time.

The commanding general at Schofield has received a letter from D. I. Conkling, treasurer of the city and county of Honolulu, to the effect that reports have been received that officers and enlisted men from Schofield have been hunting off the reservation without securing hunting permits. He requests General Wiser's assistance in bringing to the attention of those who may be unaware of the law, the provisions governing hunting with firearms in this county.
